Week workshops:

Each workshop and working group develops the link in the context of global processes, and their political implications (i.e. implications of global consumption patterns and the colonization of the imaginary in the food-collection; Why do we buy, when we can collect and what are the consequences of buying instead of collecting?)

Tentative workshop proposals:

- Landscape lecture: Agriculture, Mountain, Sea, Construction, train station Reading the landscape takes each day like other groups
- Food gathering, Meeting with biological wine producer, Visit of a local market
- Preparation of Food, gather story and memory, cooking: contributing to the food life - Nut cracking, Wild plants preparation, Peeling; Share Meal: eat while evoking the 5 senses experience
- Building of Space: Gathering sand and clay, wood; building showers and Compost toilet, planting Seedlings and Trees
- Financial autonomy, food autonomy
- Forum theatre
- Seed Exchange
- Edible plants, Food collection
- Cultivating plants
- Activist-research
- Value of food seminar/course
- Seeds conservation and politics course
- International food sovereignty course
- Technical issues of urban gardens
- Tools to communicate/engage beyond the backyards (e.g. Website agroecol.eu)
- Processes/experiences exchange on cooperatives
- Developing/recuperating the know-how for agroecology

- Museum of useless or questionable items: TV, car, electric heater, washing machine, fridge, air-conditioner, bidet, etc .-)
